# Key Messages and Recommendations

**FUTURE OF NURSING™**  
Campaign for Action

1. Nurses should practice to the full extent of their education and training.
2. Nurses should achieve higher levels of education and training through an improved education system that promotes seamless academic progression.
3. Nurses should be full partners, with physicians and other health professionals, in redesigning health care in the United States.
4. Effective workforce planning and policy making require better data collection and an improved information infrastructure.

**FUTURE OF NURSING™**  
Campaign for Action\*

**Leadership**

**Practice & Care**

**Education**

**Interprofessional  
Collaboration**

**Diversity**

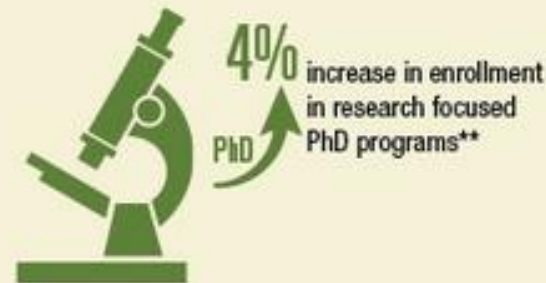

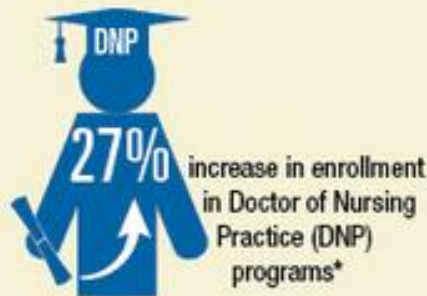

## What have we accomplished so far?

The Campaign for Action has established Action Coalitions in

ALL **50 STATES**  
and the District  
of Columbia!

The Campaign and its partners are advancing **education**. A more highly educated nursing workforce is key to the future success of America's health care system—and together we are making progress!

\*Data Source: American Association of Colleges of Nursing, Enrollment & Graduations in Baccalaureate and Graduate Programs in Nursing (series)

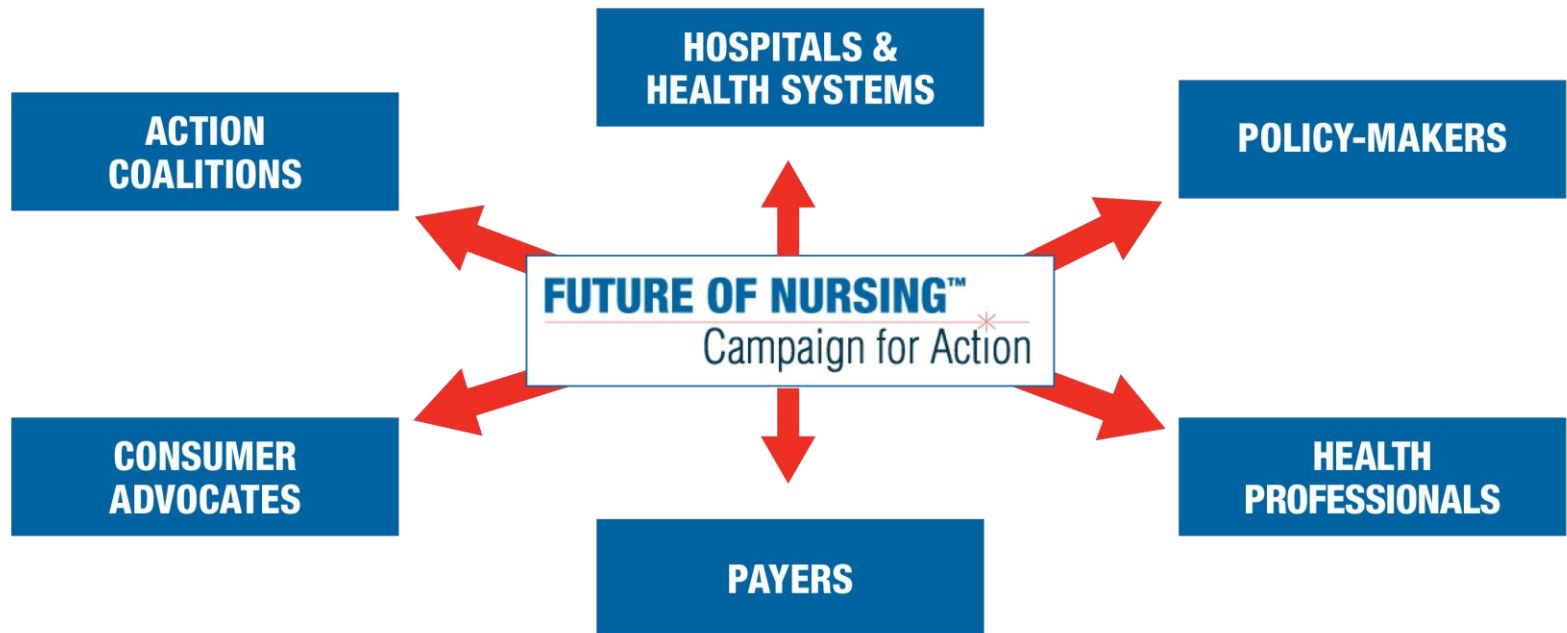

\*\*Data Source: American Community Survey, Public Use Microdata Sample (series)

The Campaign and its partners are **removing barriers** to practice for nurses. To fully realize the potential of qualified nurses to provide care to people who need it, the Campaign is leading efforts to modernize outdated policies that prevent nurses from practicing to the full extent of their education and training. Notable accomplishments include:

# We Need Your Support

**FUTURE OF NURSING™**  
Campaign for Action\*

# The Missouri Action Coalition

- Statewide effort to further the Institute of Medicine's report on the *Future of Nursing*
- Grass-roots movement of Missouri nurses and non-nurses
- Membership over 500
