Four models emerged as most successful....

- RN to BSN awarded by the community college
- Shared state or regional curriculum
- RN to MSN
- Competency-based state or regional programs

The Shared Curriculum Model: **Unpacking ADN-BSN Seamless Progression**

Model (CNECM)

Sonoma State University

What are the obstacles to seamless ADN-BSN Progression?

The ADN-BSN Unit Conundrum

ADN-BSN Student's Unit Accumulation	Purpose
82-92 u	To meet all ADN GE, nursing prerequisite and nursing major requirements
+ 16 u	Outstanding GE (not met with above) required for transfer and to meet U GE requirements
98-108 u TOTAL	Only 70 of these units are allowed to count toward the 120 u for BSN
50 units	Required to be taken at university to reach 120 u BSN requirement
148-158 units TOTAL	Minimum actual units eventually completed by ADN-BSN to achieve the BSN vs 120 units for Pre-Licensure BSN

Example: Comparison of Pre- and Post-Licensure Program Plans

Nursing Prerequisite Example

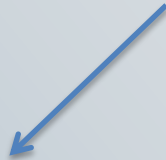

*** Except as prerequisite to nursing science prerequisites physiology and microbiology!**

Nursing Course Example

Psychiatric & Mental Health Nursing
(curriculum required for licensure)

**“Lower” division
OR “upper”
division?**

**How many units
of theory and
how many units
of clinical?**

Addressing the Conundrum

All Nursing

licensure at
Lower
Division

All Nursing
content
required for
licensure at
Upper
