

FUTURE OF NURSING™

Campaign for Action

AT THE CENTER TO CHAMPION NURSING IN AMERICA

Action Coalition Leaders

The Future of Nursing: *Campaign for Action* is a national initiative working toward an America in which everyone can live a healthier life, supported by nurses as essential partners in providing care and promoting health equity and well-being. Action Coalitions, led by nurses and their champions from business, education, healthcare delivery, and other sectors, carry out the work of the *Campaign* at the state, local and regional level. Active in most states and the District of Columbia, Action Coalitions mobilize diverse stakeholders to create innovative solutions with nurses leading the way to build healthier communities, improve well-being, and develop pathways for health equity. Action Coalitions focus on advancing policy leadership, diversifying nursing, transforming education, strengthening collaborations, and activating the field to disseminate and implement the National Academy of Medicine's report, *The Future of Nursing 2020-2030 Charting a Path to Achieve Health Equity*.

Leaders are listed below.
